# OUR VISION

Our Vision is to attain excellence in all aspects of the respective industry, ranging from the production to the finished product. We are committed to staying at the forefront of our industry, constantly striving to generate the highest value for all stakeholders involved.

# OUR MISSION

Our Mission is to ensure complete customer satisfaction by delivering products on time and with zero defects. To upgrade our people's skill-sets and machine health with the best technology available. To create innovative designs and sustainable processes that benefit both society and the environment.

## ■ MAKHANA - FOX NUTS

Makhana, also known as FOX NUTS or lotus seeds, are edible seeds derived from the Euryale ferox plant- a flowering plant classified in the water lily family (Nymphaeaceae) and the only extant species in the genus Euryale commonly found in India. These seeds are often roasted and used as a snack, and they have been an essential part of traditional Indian medicine and cuisine for centuries.
